

INDEX

<u>Absenteeism, of cardiacs</u>	490	<u>Chlorogenic acid</u>	
<u>Accident(s), human behavior in</u>	491	allergen in plant substances	42
<u>Aerosol(s), particle counter</u>	455	<u>Cholinesterase measurement in blood</u>	41
<u>Air pollutant(s)</u>		<u>Chromate assimilation by trout</u>	43
polycyclic aromatic hydrocarbons	486	<u>Copper dust, effect on guinea pigs</u>	451
<u>Air pollution</u>		<u>Dermatitis, dermatosis(es)</u>	
causes of diesel smoke	489	betamethasone	426
control, problems in control areas	487	from hydrazine compounds	428
<u>Allergy(ies), chlorogenic acid</u>	427	neurodermatoses in industry	425
<u>Arthritis</u>		<u>Dieldrin, health hazards from</u>	447
and rheumatoid pneumoconiosis	458	<u>Diesel</u>	
use of muscle relaxant	420	measurement of engine emissions	482
<u>Asbestos dust</u>		smoke and its causes	489
production of mesothelial tumors	463	<u>Distomatosis in Belgium</u>	422
pulmonary effect of crystalline and non-crystalline	469	<u>Drugs</u>	
<u>Asbestosis-Tuberculosis</u>		evaluation in industrial medicine	413
compensation liability in Germany	468	legal liability in testing new	407
<u>Bacteria, dispersal in hospital wards</u>	412	<u>Dust(s), airborne in foundries</u>	456
<u>Benzene control, ventilation for</u>	485	<u>Dust control, suppression</u>	
<u>Betamethasone, dermatological evaluation</u>	426	in a fertilizer plant	450
<u>Blood</u>		new wet process for	488
cholinesterase measurement	418	<u>Dust counting, determination</u>	
coagulation and industrial intoxications	434	aerosol particle counter	455
<u>Books</u>		<u>Dust sampling, samplers</u>	
the pneumoconioses	410	dust flow past obstacles	453
silicosis in lead and zinc mine in Rajasthan	411	<u>Endrin, health hazards from</u>	447
<u>Brucellosis, in public health work</u>	423	<u>Exhaust gases, automotive engines</u>	
<u>Burns, resistance to infection in patients</u>	429	exposure of animals to	483
<u>Byssinosis, in a cotton weaving mill</u>	457	measuring diesel emissions	482
<u>Cancer</u>		<u>Eye, 1,000 contact lens cases</u>	417
detection in low-income groups	421	<u>Fertilizer plant, dust control in</u>	450
supervoltage x-ray therapy	473	<u>Filter(s), for sampling gas streams</u>	454
<u>Carbon tetrachloride</u>		<u>Flue dust, measurement of resistivity</u>	452
acute intoxication	445	<u>Fluoridation of water</u>	
effect on blood coagulation	434	effects of natural fluoridated water on	
hazards from use in German railway	446	dental caries	495
<u>Carcinogens, polyoxyethylene(8)-searate</u>	431	<u>Fluoride(s), exposure to and worker health</u>	435
<u>Cardiac(s), disability absences of</u>	490	<u>Fly ash, measurement of resistivity</u>	452
<u>Cardiovascular lesions</u>		<u>Formaldehyde</u>	
from paraphenylenediamine dyes	444	source and atmospheric analyses for	484
