AZ: 72165/03.00854-R

Dear all,

As mentioned in the previous mail, the meeting will take place this Friday. You will find the dial-in data below.

██████ will send around slides with concrete suggestions for the assignment of work to the different WPs by 30.06.2021 EOB.

That way, everyone can prepare for the meeting upfront. In the meeting, we can discuss further on the proposed assignments and find agreement on the task, deliverables and deadlines.

Unfortunately, this was the best date to get every MS to take part. However, some of you will not be able to take part. As ██████ will send around the slides before the meeting, you might be able to give your input beforehand to a colleague to have your thoughts included in the meeting. Please also forward this mail to other interested colleagues.

Betreff: Meeting with ECHA on concept paper

AZ: 72165/03.00854-R

Dear all,

ECHA did so far not enter their availability for the meeting. Tried to call them, but could not reach anyone this afternoon.

I hope I can clear this up Monday morning.

As ECHA is practically the star of the show there, it would be rather pointless to do the meeting without them.

The best option would currently be the 2nd of July from 13.00-14.00 o'clock as we would have a member from every MS present there. If possible, could you already block that slot in the hope that ECHA is also available there? I will get back to you on this after they informed me about their availability.

Best regards,

for the German CA
