Betreff: Daikin - PFAS restriction proposal under EU REACH Regulation - PFAS report

Dear Dr Lokaj, dear Dr Averbeck,

Please allow me to come back to you on behalf of Daikin, one of the world's leading producers of fluorochemicals as well as air conditioning and refrigeration equipment, regarding the upcoming [REACH restriction proposal on per- and polyfluoroalkyl substances \(PFAS\)](#).

In the last months, Daikin has gathered additional information on its PFAS-related business in order to complement its contributions to the two calls for evidence.

Based on this, we would like to share the following documents with you:

- A cover letter introducing Daikin's report on its fluorochemical business;
- The report featuring the production of such products at Daikin's European factories.

This report is confidential and, therefore, protected by a password that will be sent to you in a separate email.

We would be grateful to meet with you to discuss the content of the attached report and address any potential questions you may have.

With kind regards,

María Morera Castro
Consultant for Daikin
