Waterfront Policy

The commission indicated a desire to formulate a definite policy for a waterfront development program with a pool and aquarium to be considered as part of such a program.

Contract with State

Noting that a machine recently was used by the State Division of Beaches and Parks to clean the old Work beach as well as the city's beach, the commission voted to find out if a contract might be worked out so that the state would continue such maintenance.

Criticism was expressed regarding the condition of the beach restrooms near the entrance to Wharf No. 2, with the presence of old fish hoppers and other large debris at the rear of the beach line and with weeds along the railroad tracks. Coons and Recreation Director Peter Aldrete were asked to do something about these matters.

Action was tabled on discussion of ways in which the city could contribute to a senior citizens' program un-

der a fund-matching formula with the state. Aldrete suggested that perhaps the city could provide transportation to senior citizens using facilities at Scholze Park. The idea did not meet with a warm reception from the commissioners.

Aldrete reported that attendance at playgrounds and other city facilities during the summer season was up about 5 to 6 per cent over a year ago.
