Dr. D. Macqueen,
WITTENOOM.

Dear Dr. Macqueen,

Just before I left Wittenoom, the wife of this patient approached me and asked me about this man's chest x-rays. I told her I would review them and if I had anything pertinent to write I should contact you.

I am hoping to review his recent films and some at the Chest Clinic with Dr. McNulty in the near future. He, I hope, will send down the films from Kalgoorlie District Hospital. After we have seen them together I shall write to you again.

Yours truly,

ASSISTANT
TUBERCULOSIS PHYSICIAN.
