

Man. The Telegram, which was the Herald's evening edition, still runs under its old name, but is now moved to a new publication building at Seventh Avenue and Fifteenth Street.

A furious debate has already begun whether the name of Herald Square shall be changed. Many old New Yorkers, presumably among them George M. Cohan, who wanted to be remembered to Herald Square, are in opposition to the proposition to change it.

LUMBERMEN'S WAGES HIGHER IN CANADA.

LARGE PRODUCER OBJECTS TO
FIGURES PUBLISHED BY
HOUSE COMMITTEE.

(REUTERS' DISPATCH.)

WASHINGTON, April 19.—Wages paid common labor in the lumber industry in Canada are slightly higher than in the United States, according to a letter sent to some of the members of the Ways and Means Committee today by Donald Conn of the Shovel, Carpenter and Clark Company of Minneapolis. Conn was a witness before the Ways and Means Committee several weeks ago in opposition to the imposition of any duty on lumber, contending that the lumber industry in this country needs no protection. The company has lumber interests both in the United States and in Canada.

The letter sent to members of the committee today was occasioned by the publication by the Ways and Means Committee of a summary of testimony relative to wages in various countries. Conn takes exception to figures which are quoted in the summary indicating that labor costs in the lumber industry in the United States are higher than in Canada.

"In the first place the eight-hour day only applies in the States of Oregon, Washington, Idaho and Montana," said Conn. "The mills of California are working on a ten or eleven-hour basis, in Minnesota, Wisconsin and East and the entire South on a ten hour basis. Over 40 per cent of the total lumber production of the South is on a ten hour basis today and was at the time these figures were introduced. Five dollars and twenty-five cents for common labor applying to the United States as a whole is not correct."

FIRST WET STEAMER STARTS HOME TODAY.

(BY CABLE-REUTERS DISPATCH.)

MONTEVIDEO, April 19.—The American Shipping Board steamer Horner, when it sails for New York tomorrow, will be the first Shipping Board steamer to carry Negroes. Mexican Line officials here were notified from New York to stock the bay, which is being done to the accompaniment of widespread publicity to

Look to Your Paint

Is It Giving You Protection?

IF CHECKED or cracked, new paint is needed, and it will be cheaper to paint now—for deterioration costs more than good paint.

A well painted house brings several hundred dollars more on sale and more in rent. Keep it painted and it stays new for years.

The best paint spreads more easily—saves labor cost. It covers more square yards—you buy more gallons of cheap paint.

The best paint then protects the house, if properly applied, from fire to ten years longer.

There is no question as to which costs less. Don't allow surfaces to rot. It costs less to paint them.

The best paints are scientific in formula and preparation. We've made them for 72

years—to meet weather conditions in the West.

The best materials — PIONEER WHITE LEAD, pure linseed oil, zinc and color—are combined in Fuller Paints in scientifically exact proportions with long-time skill.

Our process super-purifies and "whitens" the lead base. It must be fine enough to pass through a silk screen with 40,000 mesh holes in the square inch. Fine lead means easier spreading and a more elastic, tougher protective coat. The "Whiter" lead base means more beauty in the colors.

Such paint will, if properly applied, last from five to ten years longer than cheap paint, and look better through the years.
