CLINICAL TRIALS:

- 1) June 1995-May 1996 Ipratropium Bromide Inhalation Powder 244.1308-A multiple dose comparison of ipratropium bromide inhalation powder and placebo in a 12 week double-blind, parallel group study in adults with chronic obstructive pulmonary disease (COPD). Principle Investigator, Boehringer Ingelheim Pharmaceuticals
- 2) February 1996 Clinical Trial Protocol 51901 01 04. A double blind, randomised, parallel-group, placebo controlled, multiple dose multicenter pilot trial to assess efficacy, safety, tolerability, pharmacokinetics, and biologic activity of CGP 51901 in patients 18-40 years old with mild to moderate perennial allergic asthma. Associate Investigator, Ciba-Geigy Limited
- 3) November 1995-May 1997 Protocol 9188IL/0060 A multicenter, randomised, double-blind placebo controlled trial of Zafirlukast (ACCU-LATE) in subjects with mild to moderate asthma: 3 weeks efficacy and up to 52 weeks open-label safety extension. Associate Investigator, Zeneca Pharmaceuticals
- 4) June 1995-February 1996 Protocol SLGA 5017 A comparison of adding SEREVENT versus doubling the dose of BECLOVENT in asthmatic subjects symptomatic on their existing inhaled corticosteroids. Associate Investigator, GlaxoPharmaceuticals
- 5) January 1997-May 1998 Protocol 205.115/205.128 A multiple dose comparison of 18 mcg of tiotropium inhalation capsules and placebo in a one-year, double-blind, safety and efficacy study in adults with chronic obstructive pulmonary disease (COPD). Principle Investigator, Boehringer Ingelheim Pharmaceuticals
- 6) October 1997-May 1998 Protocol 205.202 The effect of tiotropium in patients with nocturnal asthma (a randomised, double-blind, double-dummy, placebo and active-controlled parallel study). Principle Investigator, Boehringer Ingelheim Pharmaceuticals
