

Number Three Windsor Rise, Skyline Forest. That's our address, and it will be as soon as our home is finished. Just look at the view we have of Monterey Bay, the city, the mountains beyond. Dave and I took my 12-year-old friend Janet up on the deck to show her the prospect they're making. It's surrounded by permanent forest preserves in Monterey's first Planned Community Development. Carl Johnson is building it with luxury details and comfortable financing. The 2482 sq. ft. living room has a large fireplace, beam ceiling, cherry wood paneling and a Mexican hand-carved entry door. There are three bedrooms and baths and a large family room with wet bar and built-in.
