

Why do you buy an Umbrella—?

NOT FOR LOOKS,—entirely. You expect your umbrella to wear and keep the rain off. Likewise, with paint on your house. It is there to protect from wear and the weather.

That's why nothing but the best paint should go on your house. Cheap paints cannot protect, because the price prevents the full use of the proper ingredients in making. They immediately start to deteriorate. The cost of application is then a loss.

Use pure paint—Fuller paint. It gives lasting, dependable protection because scientifically made of Pioneer White Lead, pure zinc, pure linseed oil and pure colors; ground, mixed and intermixed so as to provide the greatest covering and wearing qualities.
