THE SHERWIN-WILLIAMS Co.

A. W. STEUBEL
PRESIDENT

To the Stockholders:

Herewith are presented the Consolidated Balance Sheet and Consolidated Income and Surplus accounts of The Sherwin-Williams Company for the fiscal year ended August 31, 1948.

The earnings before Federal Taxes and Special Reserves were \$30,583,797.22.

The amount set aside for Federal Taxes was \$7,300,000.00.

A provision of \$3,000,000.00 was made for the Employees' Pension Plan and \$1,000,000.00 was set up out of profits as a reserve against the Company's foreign investments.

The final consolidated net earnings after these deductions are \$9,283,797.22.

These net earnings, after allowing for Preferred Dividends, are equivalent to \$7.00 per share on the present outstanding 1,277,884 shares of Common Stock.

Referring to the \$1,000,000.00 above mentioned as set aside as a reserve against the Company's foreign investments, this was considered advisable on account of the exchange restrictions that have developed during the past year in Argentina, Brazil, and Mexico. The operations themselves of these foreign subsidiaries showed good profits in the respective currencies of these countries.

The sales volume was the largest in the Company's history, exceeding that of the preceding year by 4.8%. This volume is due to the sustained demand for the Company's paint products.

0007-SWP-034784

0007-SWP-000116204

A better supply of raw materials has made it possible to satisfy more fully this demand than has been the case for quite a number of recent years.

Kam-Tone, one of the Company's outstanding products, continues as the largest selling wall finish on the market.

Another product that has obtained wide use in the agricultural market is known as Agricultural Weed-No-More. This is a 2-4-D compound which has been sprayed for weed control over millions of acres of corn, wheat and other small grains, and pasture land.

During prior years the Company made provisions for possible inventory shrinkage by establishing reserves for this purpose. As a result of studies of a plan which would be equivalent to a last-in, first-out basis with respect to certain raw materials, the reserve has been adjusted in 1948 to reflect a 1948 price basis. The raw materials for which the reserve has been established are primarily oils and pigments used in the paint business. Since 1945 oils have advanced about 68% and pigments 60%.

About \$4,400,000.00 was spent on plant, adding new equipment and expanding production and warehousing facilities at the Company's various properties.

The management takes this opportunity to convey its thanks and appreciation to all in the service of the Company for their loyalty and efficient efforts that have produced the results reported in this Annual Statement.

AUDITORS' CERTIFICATE

Board of Directors,
The Sherwin-Williams Company,
Cleveland, Ohio.

We have examined the consolidated balance sheet of The Sherwin-Williams Company and its consolidated subsidiaries as of August 31, 1948, and the consolidated statements of profit and loss and surplus for the year then ended, have reviewed the system of internal control and the accounting procedures of the companies and, without making a detailed audit of the transactions, have examined or tested accounting records of the companies and other supporting evidence, by methods and to the extent we deemed appropriate. Our examination was made in accordance with generally accepted auditing standards applicable in the circumstances and included all procedures which we considered necessary.

In our opinion, the accompanying balance sheet and related summaries of profit and loss and surplus present fairly the consolidated position of The Sherwin-Williams Company and its consolidated subsidiaries at August 31, 1948, and the consolidated results of their operations for the year, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding years.
