

(Drislane - Purcell)

1 committee meetings in the first fiscal year and four meetings
2 in the second. How common -- strike that. How often would
3 that committee meet in most years, to your knowledge?

4 A While I was there about twice a year. I have no
5 idea what was going on back in 1957.

6 Q Did you review any material at FMSI or their files
7 that explained the reason for their particularly high level
8 of activity in this time period?

9 A The words high level of activity were my words put
10 in there to spruce the thing up a little bit. No.

11 Q Was this, the Data Book and Technical Committee,
12 still one of the most important committees of the
13 organization in this time period?

14 A Yes.

15 Q And you indicate here that Mr. Art Litchfield of
16 Raybestos-Manhattan was someone who then had become again
17 chairman of this committee in this time period. Do you see
18 that?

19 A Yeah. I have seen that, yes.

20 Q Okay. In this time period, how many other
21 committees of the FMSI were there other than the Data Book
22 and Technical Committee chaired by Mr. Litchfield of
23 Raybestos-Manhattan?
