

**National Lead
is hard to describe.
But so easy to fit into.**

National Lead is a chemicals company. A paint producer. An industrial manufacturer. A metals fabricator. A mining company. All that. And more.

National Lead is active in atomic energy, in aviation, in the automotive industry. In oil country and outer space. In industrial and consumer markets. In advanced and basic research.

With annual sales of about 800 million dollars, National Lead is one of the world's most diversified organizations.

Which makes it so easy for the career-minded to fit right into the right spot. Right? Right! Write: Personnel Manager, National Lead Company, 111 Broadway, New York, N. Y. 10006.

An equal opportunity employer.
