Dr. Henry S. Thompson,  
Medical School,  
Harvard University,  
Boston, 17, Mass.

Dear Sir:

Referring again to the question of copies of papers  
on the lead investigation:

Through my solicitation four companies other than my  
own subscribed and I should like to be able to send a complete  
file to each one of these companies. As you have furnished me  
with only two sets I can report to but two of the subscribers  
and it is important that this report go to them before a request  
for a further subscription is made and I have had such a request  
today from Mr. Cornish of the National Lead Company.

Yours very truly,

  
President.
