Mr. A. Bruce Pyle
Assistant Bureau Chief
State of New Jersey
Bureau of Fisheries Laboratory
P. O. Box 1809
Trenton, New Jersey

Dear Mr. Pyle:

As requested I am enclosing a copy of Monsanto's statement about polychlorinated biphenyls. It should give you some basic information on this matter.

As you will note, we are conducting our own research program. We also have more detailed data on the use of PCB. However, for this specific information, it would be best if you could direct detailed questions to Mr. Elmer Wheeler, manager, environmental health, for Monsanto. He will be glad to send you what information is available.

Sincerely,

Tom C. Ford
Manager
Divisional Public Relations
