intracompany memo

From: Corporate

Location: Portland

To: Mr. [illegible]

Location: Dallas

Subject: Ready Mix

Date: November 17, 1975

Some of the independents are now trying to market asbestos free ready mix and they are having problems - and losing business. We are benefiting from various manufacturers' attempts to get asbestos free ready mix into the market. Eventually the others will probably find a way to make it and have it acceptable but the damage will have already been done and they'll have no business. Let's keep this in mind when we come to ours and not market an asbestos free type from Acme until and unless it is such that the working qualities are so similar to our current production that a user can't tell the difference. This way we won't suffer the loss of business the other mfgs are going thru now.
