TO Gordon Paton

DATE August 10, 1979

SUBJECT

Please use a separate sheet for each subject treated

Dear Gordon:

It has just come to light that our label wording on materials that are combustible—Roof Coating, Ready Mixed Bondex, Swimming Pool Paint, etc., are incorrect. Supposedly, you are using the new enclosed Silicone label. If not, throw away whatever you have and we will send you a new supply immediately.

We realize your Roof Coating, Cement Paint, etc., is not made in Toms River, but we will be sending you stickers that will have to be affixed to the front and back of each filled container. Troublesome, I know, but it has to be done. We will keep you posted.

Best regards,

Doug Wood
