From: J. C. Genzabella

Subject: ASBESTOS LABELS FOR NSK WARNER

Beginning with the next friction run we will replace the yellow labels for Japan with the attached white labels. This will comply with two of the three requests submitted to us by NSK Warner. These are: 1) smaller sized label 2) replace yellow with white color. The third request, which we have not allowed, was to convert the language from Japanese to English. Based on my last communication, this should close the door on this issue.
