ENAMEL

Time and weather tested!

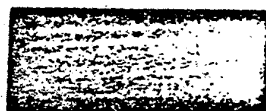

outside or inside—On floors polished by weather ... provided by traffic, this sturdy "Dutch Boy" product gives a top quality, rugged, fast drying finish that can take it.

into glass plate cases—Yes, here's a porch and floor enamel that goes on thick and smooth; and goes on staying that way. Holds its color and stands up under wear and abrasion; repeated washing and scrubbing.

heavy and treacherous—Use "Dutch Boy" Porch and Floor Enamel wherever you want eye appeal plus wear resistance. On wood, concrete or metal—floors, decks, porches, railings, stairs, steps, columns, brackets, doors, machinery bases—every wear exposed surface calls for this wear resistant finish.

easy to use—You'll be delighted with the way this rich quality floor enamel spreads, holds, and dries with smoothness. Repairs make even themselves as you flow on a high hiding, uniform coat that dries hard and brilliant.

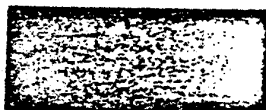

you can depend—on this tested "Dutch Boy" brand!
