Caldwell & McCann
622 Neosho Street
Baton Rouge, Louisiana

Gentlemen:

We are enclosing two copies of a list covering twelve general categories of construction materials which are henceforth to be supplied by you, unless otherwise notified, for work performed under our construction contract of November 10, 1951. In releasing this list to you, we wish to point out, that we reserve the right to withdraw any or all of the items listed or to add other items for specific jobs by so noting on the official job transmittal.

This uniform purchasing practice will permit you to place orders for such materials immediately upon receipt of the official transmittal. Your Bill-of-Material approved by Ethyl's construction supervisor will be acceptable for your ordering. A copy of each of your approved Bills-of-Material is to be forwarded to us to the attention of Mr. Paul N. Major.

To further establish a purchasing practice for expendable construction tools, please be advised that until further notice you may purchase, subject to Ethyl's Construction Supervisor's approval, expendable tools as referred to in the construction contract, Paragraph 7 of Article III, up to $150.00 per tool.

Yours very truly,

G. S. Roberts
Superintendent
General Engineering

CED/DA

Enclosure: As noted

CALDWELL & McCANN CONSTRUCTION CONTRACT

TENTATIVE LIST OF
CONSTRUCTION MATERIALS TO BE PURCHASED BY CALDWELL & McCANN

1. Concrete

   (a) Ready mix concrete, grout and mortar mix
   (b) Job mix concrete, grout, mortar mix and plaster

2. Brick and Tile

   (a) Structural clay tile, building brick and building concrete blocks
   (b) Glazed tile for wainscoating

3. Masonry Accessories

   Wall ties, floor clips, caulking materials, expansion joint materials, etc.

4. Lumber

   (a) Forms, studs, walers, etc.
   (b) Scaffolding, shoring, temporary sheet piling, barricades, etc.
   (c) Accessory hardware, form oil, etc., for above lumber

5. Millwork

   Windows, doors, and wooden frames including hardware

6. Steel

   (a) Miscellaneous small steel hangers and supports as pipe and conduit hangers, slides and rolls, light fixture and duct hangers, switch and instrument racks, etc.
   (b) Reinforcing steel
   (c) Anchor bolts

7. Sheet Metal

   Small job-fabricated ductwork, weatherproofing, stripping, etc.

8. Fastenings

   Carbon steel nuts, bolts, washers, nails, rivets, screws, baling wire, etc.

9. Flashing and Seals

Flashing and seals for walk, sumps and pits, including saturated cloth or metal membranes, roof flashing (if not sublet), cant strips, and accessory hardware

10. Pipe, Fittings, and Valves

(a) Carbon steel pipe 2" and smaller
(b) Cast iron soil pipe for plumbing
(c) Bronze, malleable iron, cast iron and carbon steel check, globe, and gate valves, cocks and fittings 2" and smaller
(d) All gasketing, caulking and sealing materials, compounds, welding rod and bitumastic felt pipe wrappings

11. Pipe and Equipment Insulation

Pipe and equipment insulation, bands, poultry and copperweld wire, canvas, firetard, roll roofing for insulation, cork sealer and cement. (When insulation is sublet to an insulating contractor, the above materials will not be furnished by Caldwell and McCann.)

12. Electrical

(a) All condulets except fixture condulets
(b) Tape, solder, compound, grounding clamps, wire connectors
