Peerless Rain-Besto Sheet Packing

FOR HIGH PRESSURE

Peerless Rain-Besto Sheet Packing is a combination of specially selected long fibre brass wire inserted asbestos, frictioned and coated with our celebrated Rainbow Packing Compound, the highest heat resisting rubber known. Engineers knowing the special merits of Rainbow will readily appreciate the extraordinary value of this packing.

Peerless Rain-Besto sheets and gaskets are always furnished with brass wire insertion unless ordered plain.

Made in rolls of about 200 lbs. each. 1/32 to 1/4 inch.

Price, per pound, $1.25

Peerless Asbestos Metallic Sheet Packing

Made to meet modern conditions of power plants where high steam pressure is used. This packing is made from asbestos yarn and metallic wire, firmly twisted and woven together. It will withstand high pressure and is sufficiently elastic to compensate for expansion and contraction.

Made in any thickness desired.

Price, per pound, $1.00

Rain-Besto Spiral Packings

A B E

STYLE A

Made of selected asbestos cloth, wound around a core made of the celebrated Rainbow Packing Compound.

STYLE B

Is made identically the same as Style A, except that it is made in the Square form.

STYLE E

Made of selected asbestos cloth wrapped around an asbestos core, all well frictioned together.

STYLE C

Is made along the same general lines as Styles A and B, but instead of the core, is made with a Rainbow rubber expansion cushion in back.

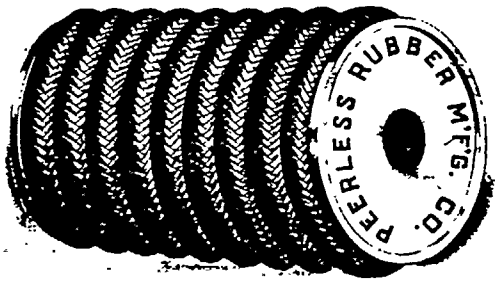

These packings can also be furnished in coil and ring form.

Unless specified, these piston packings will be furnished with plain asbestos cloth. However, if required, they can be made up of metallic inserted asbestos cloth.

Price, per pound, $1.50

Wizard Globe and Angle Valve Packing

Price, per pound. $2.00

Write for Discount

Wizard Braided and Wizard Twisted Globe and Angle Valve Packing is manufactured from selected strands of pure, long fibre asbestos, thoroughly lubricated with our own special compound. This combination results in a particularly soft, lasting, heat-resisting packing that is guaranteed to stand the highest pressures. It is particularly effective for air pumps on Air Brakes, valve stems, stems for valves, radiators, etc.

Wizard Twist is made in all sizes from $\frac{1}{8}$ inch to $\frac{1}{2}$ inch and Wizard Braid from $\frac{1}{8}$ inch to 2 inches. Both styles are wound on metal spools as above, weighing one, three and five pounds each. We can, however, furnish it in as large spools and lengths as desired.

Price, per pound, $2.00

Asbestos Wick

Is made of pure Asbestos fibre, spun into strands and is used in packing small valves, such as radiator valves, valve stems of small pumps. It is fire-proof, acid-proof and can be used to great advantage in chemical and other works.

Preferred by some engineers to the more closely woven and harder wick of the same materials.

Put up in ¼, ½ and 1 pound balls.
