**Subject:** Re: HF Study

Love Cincinnati! Make sure to get some Skyline Chili!!

We had spoken with EPA a few months ago asking that they suspend the HF study-- it's gone on for so many years and has cost so much money, all the while results were conclusive years ago. Saw that there was another grant announcement and was curious if you knew what the future of the study is. Anything you can offer would be greatly appreciated! I understand you're off doing important work so no rush!

Have a great trip and we'll chat soon.

Thanks,  
Hilary
