Dear Scott,

Thank you very much for taking the time to meet with us this Wednesday.

I was encouraged by the interest you expressed in the work we and our partners are doing with Google Earth Engine, such as the [Sage Grouse Initiative](#) by the USDA (see interactive GEE powered map: [map.sagegrouseinitiative.com](http://map.sagegrouseinitiative.com)).

Since we launched Earth Engine in 2010, we've observed that most of the cutting edge Earth Engine projects rely upon the Department's investments in the Landsat program. We believe strongly that data is an essential driver for innovation and value in today's economy, and we look forward to assisting you in whatever way may be useful as you steer the Landsat program during this time of transition.

Our Google team in DC is happy to be a local resource for you and your team. I will be back in DC regularly for my NGAC commitments and hope to meet again in person soon.

Thank you again for your time, and I look forward to staying in touch.

Kind regards,  
Rebecca
