Cleveland, Ohio 44114

RE: Imbalance UCC Agreement PX-2439
Ship VCM, Receive VCM

Dear Mr. Scapek:

With reference to your letter of January 30, 1978, and your referencing to Mr. Bedburys' letter to me of October 20, 1977, regarding subject Agreement, I will attempt to reconstruct the items in question.

Mr. Bedbury stated that most of the difference or imbalance of 21503# was due to the six cars shipped on 8-1-77, where he stated that Carbide reported shipping 1,016,239# as compared to Diamond's receiving 992100#, or a difference of 24139#. According to my records, we showed shipping 1,000,260# (scroll attached) and not 1,016,239#, which would make a difference between shipped and received of 8160#. Our records was adjusted by this amount to affect a new balance due Diamond of 2,778,747# as compared to your 2,792,090# or a difference of 13,343# as of January 31, 1978.

Please note that the attached scroll indicates that several shipments from Diamond during July, 1977, there is evidence of 15,979# heels left in tank cars or the approximate amount of the imbalance.

After your investigation of the above mentioned items, I would appreciate hearing from you, so that an early reconciliation may be affected.

Sincerely,

Kenneth A. Haid
