

1 A Well, there was three kinds. There was
2 white and then they had the fiberglass and then they
3 had the foam rubber.

4 Q Now, the foam rubber, that would go on what
5 types of pipes?

6 A That was chilled water lines.

7 Q Now, the fiberglass, what kind of things
8 would that be put on?

9 A That would be on the ductwork.

10 Q And the fiberglass, is that the -- kind of
11 the roll blanket you stuff --

12 A It is a blanket like.

13 Q Now, the white pipecovering that you
14 mentioned, is that the half-rounds that we were just
15 talking about earlier?

16 A Yes.

17 Q Did you come to learn the name of the half-
18 round white pipecovering that was used at Sinai during
19 the 12 months that you and Mr. Vandergucht were
20 working?

21 A At Sinai they used a product called Kaylo.
