Attention: Mr. Bill Howard
Safety Superintendent

Dear Mr. Brown:

An industrial hygiene survey was conducted at your plant on September 8, 1971 by Mr. Jerry F. Lauderdale, Assistant Engineer for our Industrial Hygiene Program, for the purpose of evaluating workers' exposure to asbestos in the Joint Systems Department. A copy of the report covering the observations and recommendations made as a result of the survey is enclosed.

We appreciate the cordial assistance given to Mr. Lauderdale by Mr. Bill Howard and the plant management during the survey.

Please do not hesitate to contact us if we may be of further assistance.

Yours very truly,

James C. DeWitt
