This is a big change of plans. Our expectation was Saturday.

Sydney,

As you are aware we desire a great experience for the Administrator at EDT 2017. This is why Ken Paxton, my friend of thirty plus years could recommend the Administrator come. I am the conservative here and knew that this could be a smart and good place for the Administer to come. We all want clean air and water.

Because on Saturday, nationally, there will be march for "science", there will also be one in Dallas. It has come my attention that this March will begin in Downtown and end at the State Fair. I also learned last night that the Mayor of Dallas will be speaking at the conclusion of the March on Saturday.

This march will attract an upset Sierra Club (they are boycotting us) and others. Their could be many thousands of people in this march.

Wisdom dictates Friday not Saturday for the Administrator to be with us.
It is our Business day. We are having an all day pro shale conference, that will balance the need for shale exploration with the need for wise extraction. We would like the Administrator to say a few words at that conference IF he would like to do so.

We are having a legal symposium where I have slated the Administrator to speak at a closed lunch that is a Prime spot to discuss overreach of federal law vs States rights. We have many C level executives here on Friday as well.

We have many balls and the air and we need to finalize plans as there are many moving parts. With a staff ramped up of now almost 40 people we need to finalize things

running ay the speed of sound.

*Please let me know when we can talk today.
Trammell also wants to touch base with RJ.*
