The Director,
Australian Blue Asbestos Limited
PERTH, W.A.

P.796.
24th November, 1958.

Dear Sir,

DUST CONTROL: The mine and both treatment plants were inspected by the Senior Inspector of Mines, District Inspector of Mines, Workmans Inspector of Mines and a Ventilation Officer from Kalgoorlie. They will be returning here next Wednesday to take dust counts in the Mill.

Both Messrs. Boylan and Ibbotson expressed their satisfaction with conditions in both plants and Mr. Ibbotson remarked on the "very great improvement" at Colonial Mill.

The point they are stressing most is the discharge from the Rotoclones which they say is sending fine fibre and dust into the underground workings. They intend to submit several suggestions for its eradication for our consideration. Mr. Boylan will see you on his way back to Kalgoorlie.

Yours faithfully,
AUSTRALIAN BLUE ASBESTOS LIMITED
on Allan
Acting Manager.
