SUBJECT PYROCLOR - WILSON TRANSFORMERS

REFERENCE

TO D. Wood,
ST. LOUIS.

I received a call yesterday from Wilson Transformers. They were concerned that one of their customer's personnel had for some reason swallowed Pyroclor and were seeking our assistance as to the correct procedure to handle the patient. We could offer little positive assistance but I thought in view of the political ramifications we should seek your suggestions on the correct procedure and medication for the amount involved. Today we received a letter from Wilson confirming that need. Could I please have your comments as to what action should be taken at your earliest convenience.

R.F. Garnsworthy
