Mr. E. W. Bullard
E. D. Bullard Company
275 Eighth Street
San Francisco, California

Dear Mr. Bullard:

I have examined the gas mask which I received some days ago and I find it entirely satisfactory. I will be pleased to approve its use in the mixing of Ethyl Gasoline. I think that the face piece is a distinct improvement over that which has been previously employed.

Please let me know as to what disposition to make of the mask which you have sent me for inspection.

Very truly yours,

RAK:IS
