Pumps
Hoists

During the thirty-eight years we've been serving industry there has never been a dormant period—a period of Marking Time. Since the company's birth, in 1910, the order has always been Advance and Change. Variously the plant has been modernized, rebuilt, moved, and expanded; our scope of service has been widened repeatedly. Operating methods and procedures, always under careful study, have been altered and accelerated; *the plant facilities* redesigned again and again for ultimate simplicity and speed.

Throughout these thirty-eight years only one factor has remained a constant—the caliber of Chicago Electric Workmen. No machine or plant is better than the men who use it, and the only fine line of difference between the "employee" and the "craftsman" is the personal pride in effort that the true craftsman displays. This satisfaction and pride in quality workmanship distinguishes the Chicago Electric Service; assures industry of certain satisfaction when dealing with the nation's most outstanding rebuilder.

For nearly forty years every unit turned out has received the Chicago Electric Guarantee of excellence, backed by the Company's record as the country's finest rebuilder. To be certain of prompt and reliable handling of power problems, remember Chicago Electric, where traditional skill and craftsmanship combine with the most modern operating equipment to provide industry's most distinguished service.

POWER SPECIALS

A Partial Listing From Chicago Electric's Quality Stock One Of The Finest In The Nation.

SPECIAL MOTOR GENERATOR SET

1000 KW generator, General Electric, type MPC, comp. int. 275 volt, 514 RPM, direct connected to, 1120 KVA synchronous motor, General Electric, type TS, 3 ph, 60 cy, 4600 volt, 514 RPM, on fabricated steel sub-base. All complete.

2 COMPLETE VARIABLE VOLTAGE DRIVES

M.G. Set 200 KW DC generator, General Electric, type MPC, 250 volts, 800 amps, 1200 RPM, direct connected to, 300 HP synchronous motor, General Electric, type TS, 3 ph, 60 cy, 440 volt, .8 P.F. 1200 RPM.

D.C. Motor 250 HP General Electric, type MPC, form A; 245 volts, 730/975 RPM. With Complete Starting and Control Panels.

ROTARY CONVERTERS

2—375 KW DC rotaries, General Electric, type HCC, comp. int. 3 ph, 60 cy, 575 volt, 1200 RPM, with full automatic D.C. control, with transformers arranged for 2300, 4160, 6000, or 13200 volts.

STEAM TURBINE

2500 KVA General Electric, 3 ph, 60 cy, 2300 or 4160 volts, 3000 RPM, 185 lbs. condensing.

DIESELS

New Diesel Generator—80 KW, 75 KVA, AC rotarector, Electric Machinery, 3 ph, 60 or 50 cy, 230/400 volt, 4 wire, 3 P.F., 188.3 amp, (00 or 720 RPM, with 3 KW 250 Mech. exciter 125 volt, direct connected to, Oilwell diesel, model 10000-4YD, size 5½x8, on teh. steel base.

1000 HP Fairbanks Morse, 720 RPM, with all auxiliaries, with 1500 KVA, 1000 KW Choker Wheeler, 80% P.F. 3 ph, 60 cy, 2300/4000 volt, AC generators 720 RPM.

448 HP General Motors, 600 RPM, all complete, with 300 KW Westinghouse, 2 wire, 125/250 volt, DC generator, 600 RPM.

483 HP General Motors, model 568A, full diesel with all auxiliaries with 250 KW, 3 ph, 60 cy, 440 volt AC generators 1200 RPM.

WELDERS;

Amps	Make	Type	Volts	Speed

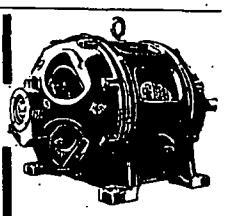
40	U.S. El.	SCV hb	440	1800

FREQUENCY CHANGERS

25 KW generator, General Electric, type MM-1043, 3 ph, 240 cy, 220/440 volt, 65 amp, 3600 RPM, .8 P.F. direct connected to, 25 HP induction motor, General Electric, type K-364, 3 ph, 60 cy, 220/440 volt 35/18.5 amp, 3580 RPM, 4 brg. unit on teh. steel base.

25 KW generator, Allis Chalmers, type AMY, 3 ph, 240 cy, 220 volt, 70 amp, 1750 RPM, directly connected to, 25 HP induction motor, Allis Chalmers, type AM, 3 ph, 60 cy, 220 volt, 57 amp, 1750 RPM, 4 brg. unit, on steel teh. base.

10 KW generator, General Electric, type MM-1043, 3 ph, 180 cy, 220/440 volt, 1800 RPM, .8 P.F. direct connected to, 10 HP induction motor, General Electric, type K-364, 3 ph, 60 cy, 220/440 volt, 1800 RPM, on teh. steel base.



SYNCHRONOUS MOTOR SPECIALS

2—300 HP Allis Chalmers, 100% P.F. 3 ph, 60 cy, 2300 volt, 360 RPM pedestal sleeve bearing, were used on compressors.
