Subject: Gaston Plant

Alex,

Good morning to you. It was wonderful to meet you last week and to spend time with you all at Plant Gaston. I wanted to get a few names from you of those who were so helpful to us in preparing for the day. Would you kindly help me to recall those folks?

Probably the people that took the tour with us is who I am trying to remember. I have contact info for you and Houston but I don't recall Jay's last name or the plant manager. Contact info for Jim Heilbron would also be so helpful. There were a couple other gentlemen that were with us the whole time as well whose names I cannot recall. My apologies for the vague descriptors.

Any help you can offer would be wonderful. Thank you.

Millan
