	Jeanne Eckhart	Date
Supervisor Signature/Date		8 APR 2020
	Guy Tidmore	Date

Section I – INTRODUCTION

PURPOSE OF THE INSPECTION

EPA Region 6 inspectors Jeanne Eckhart and Kayla Woods visited the Slant Operating, LLC oil and gas facility located near Electra, Texas on 02/25/2020 for an unannounced inspection. There were no representatives of Slant Operating, LLC present for the inspection. The inspection was conducted by authority of the Clean Water Act and the Safe Drinking Water Act to determine compliance with the Environmental Protection Agency (EPA) regulations.

FACILITY DESCRIPTION

This facility was located on the Waggoner EEE Lease and is a tank battery with four storage tanks on site. There were 2 oil storage tanks and 2 produced water storage tanks.

Section II - OBSERVATIONS

I observed that the oil storage tanks had a secondary containment that was inadequate due to fluids being in the secondary containment area, including oil. I saw that the produced water (brine) storage tanks also had inadequate secondary containment around the storage tanks and brine pump due to fluids also being in this containment area.

Section III – AREAS OF CONCERN

There were fluids inside the secondary containments, including oil and produced water.

Section IV – FOLLOW UP

EPA water enforcement will refer this facility to EPA Region 6 SPCC program.

Section V – LIST OF APPENDICES
