Inquiry about Lead Poisoning

April 7, 1949

We have your letter of March 29 referring to our letter of March 24, concerning Mrs. Victor Horney's letter furnished us by the Shell Oil Company.

I have taken this up with Ted Littlefield and find that Shell has taken no action, and is awaiting help from us on this point. Will you, therefore, please pass this information along to Dr. Kehoe so that he may advise us at once what action we should take.

Yours very truly,

A. H. Chenault
