Re: Comments on EPA Proposed Rule for Third Third
Scheduled Wastes

Dear Meredith:

Enclosed is a copy of the comments we submitted to EPA for the Vinyl Institute on the Agency's Proposed Rule for Third Third Scheduled Wastes. The comments address EPA's request for information on the reluctance of waste disposal firms to accept F024 wastes. Essentially, the comments state that several Vinyl Institute member companies have been unable to find disposal firms willing to take their F024 waste due to the regulations imposed on F024 waste disposal which became effective June 23, 1989. These member companies have been forced to store their F024 waste onsite. We clearly state that this situation cannot continue and that we expect the Agency to ensure alternative waste disposal techniques or facilities.

Unfortunately, these comments could not be submitted to the normal review process before submittal to the Agency due to the press of time. Please call me if you have questions concerning this matter.

Cordially yours,

Peter L. de la Cruz
