SECRET
FOR your PCB file

JD

Dear Mr. Bishop:

Enclosed is a copy of the General Electric report entitled "Human Health Effects of Electrical-Grade PCBs" authored by Messrs. Brown, Coe and Pocock. The report is being sent to you at the request of John Craddock who indicated that you would like to have a personal copy.

The report has been prepared primarily for use within General Electric, and we are not making a broad external distribution at this time. We ask that you not make copies since we are awaiting further critical review.

Very truly yours,

S.B. Hamilton
