### PREFATORY STATEMENT

United States Gypsum Company (hereinafter "U.S. Gypsum") has, to the best of its abilities, gathered non-privileged documents into a document repository for inspection by plaintiffs' counsel in response to requests for production served in asbestos litigation. These documents provide information that supplements and expands upon that provided in these answers to Interrogatories, U.S. Gypsum hereby offers to make available these documents at a mutually convenient time at its offices at 125 S. Franklin Street, Chicago, Illinois.

In giving its response to Interrogatories as to asbestos-containing products, U.S. Gypsum refers to products containing commercial asbestos as part of their formulation and to the type of commercial asbestos used as part of the formulation.

### OBJECTIONS

U.S. Gypsum objects to the manner in which plaintiff has defined U.S. Gypsum to the extent that plaintiff purports to include in its definition of U.S. Gypsum its subsidiaries and predecessors in interest, its present and former officers, executives, directors, agents, employees and all other persons acting or purporting to act on behalf of U.S. Gypsum. In that U.S. Gypsum is the named defendant, this definition is overly broad and would require U.S. Gypsum to engage in unduly burdensome research, divulge privileged information and produce privileged documents. This defendant, U.S. Gypsum Company, responds to these Interrogatories on behalf of itself.

U.S. Gypsum further objects to these Interrogatories to the extent they ask for "identification" of voluminous documents on the ground that they are overly broad, unduly burdensome and not reasonably calculated to lead to the discovery of admissible evidence. As set forth *infra*, U.S. Gypsum will produce documents which are the proper subjects of an appropriate document request.
