OUR REF. S/7

YOUR REF.

19th June 1946

Dr. R.A. Kehoe,  
The Kettering Laboratory,  
College of Medicine,  
University of Cincinnati,  
CINCINNATI.

Dear Bob,

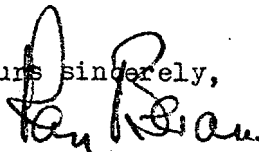

I am most indebted to you for the trouble you have taken in dealing so meticulously with our tiresome problems in connection with the revision of the tank cleaning regulations.

I fully appreciate the point raised in your letter of May 28th and would certainly not expect you to put your name to any regulations issued by us which conflicted with those issued under your name in the United States.

As mentioned in my cable, I have been most anxious to carry our oil company friends with us in this matter since I believe this to be important. The compromise which you have been kind enough to accept has, I think, accomplished our purpose.

The draft regulations have now gone off to the printers and I shall send you some copies of the final prints as soon as these are available.

Yours sincerely,

T.R.A. BEVAN
