IN THE CIRCUIT COURT FOR BALTIMORE CITY, MARYLAND

IN RE: PERSONAL INJURY	*	
AND WRONGFUL DEATH ASBESTOS		
CASES	*	
BILL ADAMS, ET AL.	*	September Term
Plaintiffs		
v.	*	Before the Honorable
		Joseph I. Pines,
		Circuit Court Judge
ARMSTRONG WORLD INDUSTRIES,	*	
INC., ET AL.	*	
Defendants	*	Case No.:

* * * * *

DEFENDANT, OWENS-ILLINOIS, INC.'S RESPONSES TO
PLAINTIFFS' FIRST SET OF INTERROGATORIES
TO DEFENDANTS

PRELIMINARY STATEMENT

Some of the events which may be relevant to the matters inquired about by Plaintiffs' Interrogatories apparently occurred more than thirty-five years ago. In addition, effective April 30, 1958, Owens-Illinois, Inc. disposed of the business involved in this action by way of sale of that business to Owens-Corning Fiberglas Corporation. Since that time, Owens-Illinois, Inc. has not engaged in any such business. It does not now and it has not since that sale manufactured, distributed or sold any of its asbestos-containing products. As a result of the foregoing factors, many of the individuals who might have had personal knowledge of the matters to which plaintiffs' interrogatories relate are deceased, or are otherwise unavailable to Owens-Illinois, Inc., and investigations to date indicate that at least some documents which relate to matters inquired about by these interrogatories were transferred to Owens-Corning Fiberglas Corporation with the transfer of the business in question in 1958. Owens-Illinois, Inc. is engaged in a continuing

public accountant firm or firms which compile net worth statements and profit and loss statements for you for the past seven years, to date.

A. 13. Not applicable to this defendant.
Refer to answer to Interrogatory No. 12.

Q. 14. List by title, author or authors, publisher and date of publication all scientific articles, treatises, text books, books, magazines, handbooks, manuals and any other published matter whatsoever, of a scientific, industrial hygiene or engineering, medical or industrial or consumer safety nature, which you have ever possessed, regardless of whether it was contained in your library.

A. 14. This defendant objects to this interrogatory as being vague, ambiguous, irrelevant, overly broad, burdensome and oppressive, not reasonably calculated to lead to the discovery of admissible evidence and not limited in time or scope to any issue which is the subject of this case. Further, this defendant objects to this interrogatory in that it seeks information protected by the attorney-client and/or the attorney work-product privilege. Without waiving the above objections, during the period of time pertinent to these actions, this defendant did not maintain an entity which would be characterized as an industrial hygiene, medicine, safety and/or engineering library. However, this defendant believes that a separate engineering library may have been maintained by its technical facility. This defendant also states that although it has no records indicating the existence of such a library, upon becoming involved in asbestos-related litigation this defendant listed all the publications which were in its then existing industrial hygiene library. These publications are listed on Exhibit III. This defendant has not yet determined which, if

any, of these publications were in this defendant's possession during the time it manufactured, sold and distributed its asbestos-containing products.

Q. 15. Give the date of acquisition by you of each such publication listed in your answer to the interrogatory immediately preceding.

A. 15. This defendant incorporates by reference its objection and answer to Interrogatory No. 14.

Respectfully submitted,

Lawrence L. Hooper, Jr.
Gerry H. Tostanoski
Tydings & Rosenberg
100 East Pratt Street
