

1 Q And you would agree with me, wouldn't you,
2 Doctor, that if somebody was aware, if a manufacturer
3 was aware of a threshold limit value for the
4 development of a disease with the use of its products,
5 it would be a good idea to warn individuals who may
6 come into contact with those products about that
7 threshold limit value, wouldn't you?

8 A In retrospect, it always would have been a
9 good idea, but it wasn't what was generally done at
10 that point in time.

11 Q I understand it wasn't generally done, and
12 that is why we are here, but you would agree it would
13 be a good thing to do, wouldn't you?

14 A It wasn't done for any product.

15 My right hand mirror in my car in 1965
16 didn't say, caution, things may appear closer than
17 they are.

18 I mean, warnings are recent phenomenon in
19 society.

20 Q Okay. When you met with the lawyer back in
21 1979 for Keene, he told you what the defense was in
