March 15, 1982

Mr. Warren Whitley
CAPCO Pipe Co., Inc.
1400 South 20th Street
Birmingham, AL 35205

Dear Warren:

It is indeed a pleasure to confirm formally Lee Taylor's invitation and acknowledge your acceptance to participate as a guest speaker at the Association's upcoming Annual Meeting and Industry Conference, May 2-5, 1982 in Cancun, Mexico.

This year's conference will assess the worldwide outlook for A/C pipe and factors which will be decisive in shaping the supply-demand curve in 1982-83. The session during which you are scheduled to speak will focus on the U.S. outlook and include presentations by yourself, Agnes Timothy (CT), Fred Timpe (CT) and John Fischer (J-M).

As requested by AACPP's Executive Committee and programmed by Staff, Ms. Timothy will address the U.S. Economic Outlook. You, Fred and John will examine collectively, yet independently, the dynamics of current market trends from three related, but different perspectives; respectively, market outlook, resin outlook, fiber outlook. Recognizing that some overlap will be unavoidable, we would ask that your assessment focus primarily on the outlook for asbestos fiber and its impact on A/C pipe markets.

Your presentation should be formal in tone, 20 minutes in length and, where appropriate, supplemented by graphics or handout materials. It is Association policy that all presentations by member company personnel be cleared with Art Kahn, AACPP Counsel (215-988-2480). Please give him a call to clear up an uncertainty or misgiving you might have relative to the scope and substance of your presentation. Lastly, we request that a copy of your personal remarks be submitted to AACPP Counsel no later than April 23, 1982.

Please give me a call if you have questions.

Cordially,

A/C PIPE PRODUCERS ASSOCIATION

Joseph C. Jackson
