Subject: BHRC - Update on Contract, Exec Comm, Advance to Irons/CinPathogen

Team;

Thought a quick update on where we are as far as I know:

- Exec Committee call on April 11
- Issue Paper at Red Caveney; API will send to BHRC when Red has finalized
- Each company has the contract Amendment 4: ExxonMobil has executed and returned; Shell will sign on Monday; Zach meeting today; not sure about BP & CP.
- Assuming Exec Comm approval on April 11, API is ready to transfer money to CinPathogen. We need to discuss budget on call on Monday. Right now, there is only about 300K available. We may want to consider transferring money from contingency. The rest will have to wait on all the sponsor contracts being executed.
- API advanced Dr. Irons T&E money to cover upcoming trip to China.
