CORNING GLASS WORKS
CORNING, NEW YORK

OFFICE OF
W. C. TEMPLER, M. D.
MEDICAL DIRECTOR

October 21, 1938.

Dr. Leroy U. Gardner,
Director of Saranac Laboratory,
Saranac Lake, New York.

Dear Doctor Gardner:

Within a very short time there will
be a new corporation formed, owned chiefly by the Corning Glass Works
and the Owen-Illinois Glass Company, to manufacture Fibre Glass.

You, of course, will recall the work which
you did on that some few years ago and the conclusion that it was harm-
less to a great extent as a fibrosis forming material. I would like to
discuss this point further with you and wonder if it will be convenient
for you to spend perhaps a half hour with me at Albany on November 3.
I mention this date because of the fact that you are on the program of
the meeting held there that day.

If this would not be convenient, I will
gladly come over anytime at your convenience.

Very truly yours,
CORNING GLASS WORKS.

W. C. Templer, M. D.

October 26th, 1938.

Dr. W. C. Templar,
Corning Glass Works,
Corning, New York.

Dear Doctor Templar:-

I should be very happy to see you
at the Albany Meeting on November 3rd and to discuss
the experimental work which we did with the fine glass
fiber manufactured by the Corning Glass Works.

Very truly yours,

Leroy U. Gardner, M.D.,
Director.
