TO: DISTRIBUTION LIST
SUBJECT: 1989 IH MONITORING SUMMARY

Attached is a summary of the 1989 industrial hygiene monitoring data for your location that have been entered in the HSS. The tables list the number of area, peak, task and TWA samples taken. Information is also provided as to the activity sampled for the peak and task samples, and for type of operation (normal or other) for TWA samples. Any noise sample results submitted are also included.

We have noted that for at least one location, not all of the 1989 data has been entered as of this date. We would appreciate confirmation from your location of the current status of all 1989 exposure data entry into the HSS.

Please let us know if you have any questions.
