mer and fall
While in the past, bi-colored
roses have had a tendency to fade
rapidly, the colors of Forty-niner
stay until the last petal drops. The
plant also shows satisfactory
strength and resistance to disease.
Robust growth is one of the
strongest characteristics of Tally-
ho. This plant branches continu-
ally, throwing out long straight
flower stems with a beautiful bud
at the top. Its flowers, when in
full bloom, last well.

A rich spicy fragrance, unique
coloring and graceful form in the
open bloom were major reasons
for Tallyho's selection as an All-
American Rose.

Selection of the All-America
Roses is made each year by a
panel of rose experts. These im-
partial judges score each variety
on the basis of its performance
during two-year trials in All-
America Rose Selections test gar-
dens.

These gardens are located
throughout the country insuring
that prize winning plants are ca-
pable of surviving under any cli-
matic conditions in America.
