WOW! What a surprise. I salute you for making the decision to choose family over career. I, personally, will miss you terribly. I know that you have weathered a lot of challenges supporting the Shanghai Health Study. So do wish you could be around for the grand finale. If you are open to sharing your personal email/telephone, I would very much like to stay in touch. You have become a friend. Take care.

Patsy

Subject: Resignation from API

To 211b, BHRC, HPV Oversight Committees & H&PS Members –

I regret to inform you that I have resigned from API. As many of you know, my mother has been ill for the last few years, and is not getting any better. Consequently, I am resigning to take care of my mother and family business.

Needless to say, I will be keeping my current commitments, which will take me through the first week of November. My last day at API will be in the 2nd week of November. I will be working with API over the next few months to ensure a smooth transition of activities that I currently manage.

Working at API for 10 years has been a great experience for me professionally and personally. I have worked with many fine professionals both through committee work and on the API staff. I will miss the daily, stimulating interactions.

Best wishes to all,

Regards,
Lorraine
