Dear Dr. Kehoe:

Thank you for your letter of April 28.

As far as the REVIEW OF ALLERGY's getting its material is concerned--we print one Special Article per monthly issue or so, and we print abstracts of articles already printed elsewhere. Since your review article on lead in the common human environment is going to be published by the official journal of the Air Pollution Control Association, we would be happy to receive an abstract after it appears in the Air Pollution journal, as per your original suggestion in your letter of March 31.

Good luck on your monograph.

Yours sincerely,

Willa McKay
Editorial Assistant
