

Copeland Refrigeration Corporation

Sidney, Ohio

COPELAND compressors, motor-compressors and condensing units for all applications

COPELAMETIC

The Accessible Hermetic

All the features of a welded hermetic plus accessibility! Belts and seals are eliminated. Provides positive lubrication of all moving parts. Copelametic design permits on the spot accessibility when rare servicing is necessary.

Remote, self-contained Copelametic units; air-cooled, $\frac{1}{4}$ hp through 3 hp

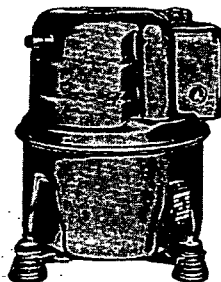

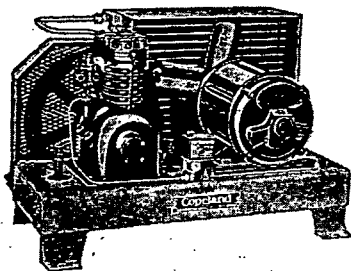

water-cooled, $\frac{1}{4}$ hp through $7\frac{1}{2}$ hp. For air conditioning, air-cooled units with refrigerant cooled compressors, oversize condensers, 2, 3 and 5 hp, water-cooled condensers, 10 hp. Truck units, from $\frac{1}{2}$ hp through 3 hp.

COPELAWELD

The Welded Hermetic

A completely hermetic motor-compressor that combines the famous Copeland "precisioneering" with low cost. Efficient for room and packaged air conditioners and high commercial temperature applications. High power factor motor provides top capacity with less power input.

Available in $\frac{1}{2}$, $\frac{3}{4}$ and 1 hp, "Freon-12;" $\frac{1}{2}$ hp through $1\frac{3}{4}$ hp, "Freon-22."

COPELAND

Belt-Driven

Belt-driven compressors are rugged, compact and highly efficient. Air-cooled and water-cooled condensing units from $\frac{1}{4}$ through 3 hp. Self-contained units $\frac{1}{2}$ and $\frac{3}{4}$ hp. Also compact, high-speed four-cylinder models for automobile air conditioning (4A0) and truck refrigeration (4A1).

Write for complete data covering all models.

Products: Full line of Packaged Air Conditioners from 3 through 20 ton, Condensing Units from $\frac{1}{4}$ through 100 hp with Cooling Towers, Air Handling Units to match. Packaged Water Chillers $7\frac{1}{2}$ through 100 hp. Waterless Air Cooled Packaged Condensing Units, 3 through $7\frac{1}{2}$ hp, Residential and Commercial.

15 hp Cleanable Shell and Tube Condensing Unit. Other sizes from $7\frac{1}{2}$ to 100 hp.

COMMERCIAL REFRIGERATION

Air cooled condensing units from $\frac{1}{4}$ to 3 hp, inclusive, and water cooled units from $\frac{1}{2}$ to 40 hp, inclusive. All models charged with "Freon 12" refrigerant, 2 hp and larger available with "F-22" refrigerant. Mechanical advantages include Timken Bearings, Positive Pressure lubrication. Special models are available for ice cream, frozen food cabinets and for the dairy industry.

Packaged Water Chiller $7\frac{1}{2}$ through 100 ton. For process or solution cooling and various other types of liquid chilling applications. "F-12" or "F-22" refrigerant.

Waterless Air Cooled Packaged Condensing Unit (right) for residential and commercial application 3 through $7\frac{1}{2}$ hp.

Packaged Air Conditioners (Left) in many combinations of pastel colors 3 through 20 ton.
