Dear Dr. Bunt:

Last year at the AIHC in Portland the API Industrial Hygiene Committee arranged a Petroleum Industry Hygienist Seminar. The session was initiated for two purposes:

1. To provide a forum for presentation of quality technical papers of special interest to industrial hygienists practicing in the petroleum industry.
2. To provide a medium for petroleum industry hygienist to become acquainted with one another in order to foster an ongoing interchange of ideas and activities.

Despite a last minute change of days and a remote meeting room location, last year's session was well attended and proved successful in terms of content and information exchange.

As part of this year's program I would like to invite a representative from your PACE committee to make a presentation on the Canadian petroleum industry.

The meeting is being held on Wednesday afternoon from 1:30 to 4:30. The general format is a 20 to 30 minute talk with time for questions following the presentation. I will provide you with further details as the meeting approaches, but please feel free to call if you have any questions at this time.

Thank you in advance for your cooperation.

Sincerely,

Thomas G. Grumbles
