Monsanto

OCT 10 1969

FROM (NAME & LOCATION) H. S. BERGEN - ST. LOUIS

DATE OCTOBER 9, 1969 CC

SUBJECT E. H. TOOMBS - MOCAN
MONTREAL CANADA

REFERENCE PCB POLLUTION COORDINATION

TO : E. P. WHEELER
W. R. RICHARD

The other day, Harold Toombs was in St. Louis primarily for the International Tariff and Trade Policy meeting, but since he also heads up the Pollution Coordination Group for MOCAN, he was quite concerned about the recent television indictment of Monsanto and PCB's in Canada.

He was aware of our PR statement and knows that George Blackburn has this information (MOCAN's PR man).

He asked specifically that we keep him informed of any work in this area because of his job function and I told him we would do so.

He also mentioned two items with which I was not familiar, but will pass along:

1. He referred to some meeting of Biochemists in Washington D.C. in October and felt perhaps the PCB subject might come up.

2. A Mr. Tony Keith, who is with the Fish and Wildlife Department of Canada at Ottawa, will be attending this meeting and was interested in our PCB story.

Are you familiar with the Washington D.C. meeting? Is it one that we should be concerned about? Is anyone attending? Do you know Tony Keith?

H. S. BERGEN
