WILLIAM J. DRIVER
PRESIDENT

May 25, 1978

TO MCA TECHNICAL AND FUNCTIONAL COMMITTEES

Dear Committee Members:

Doubtless you are well aware of the reorganization which for most of you will interrupt, at the end of this month, your tenure as an MCA committee member.

This comes about, as you know, from the latest of periodic Board-level reexaminations of the Association -- its mission and its structure. The Special Review Committee in this instance was headed by two recent past chairmen of MCA's Board who were aided by the current officers and several other Board members. In principle, their recommendations were directed to having the Association concentrate selectively on matters of the greatest significance to our industry and streamlining the organization for expeditious action.

It is important to the Board as well as to me and my staff associates that you do not take this change of apparatus as any reflection on you individually and personally. My purpose in writing is to express our deep appreciation for the interest and efforts you have given to Association affairs, with both hope and confidence that MCA may benefit further from your attention and talents as future occasions arise.

Sincerely,

W. J. Driver
